**Job Title:** Consultant/ Force.com Developer

**Position:** Full time

**Reports To:** VP, Delivery

**Location:** GTA, some travel required

**Relocation:** Not Available

**Education:** University degree/diploma in computers, engineering or a related discipline

**Experience:** 3-5 Years

**Description:** Join Architech Solutions as a Consultant/Developer. As a member of our Salesforce.com development team, you will work with our growing list of Salesforce.com customers. The ideal candidate will be excited about the capabilities of Salesforce.com, and possess a strong background working with Apex code and Visualforce pages. We're looking for a self-directed individual who is comfortable working in a customer-facing role, delivering smart, adaptive technology solutions and who is eager to be part of our fast-growing success story.

## **ABOUT ARCHITECH SOLUTIONS:**

Architech Solutions is a privately owned, Canadian, technology company based in Toronto. As a leading end-to-end services company specializing in enterprise architecture, systems integration and internet applications, Architech Solutions is poised for accelerated growth. With extensive experience working with key companies such as Rogers, TD, RBC, Clarica and Roxio, we are looking to expand our team to accommodate our aggressive expansion.

We are proud to offer a dynamic, team-minded and active environment perfect for the career seeker who wants to grow with a company with an excellent reputation within the technology industry and with its clients. We are committed to our team, our customers and the excellence of our service and are passionate about innovation and continual growth. Architech Solutions provides this viable employment opportunity for the experienced, career-minded individual with impeccable work ethic and commitment to delivering results.

## **WHAT WE'RE LOOKING FOR:**

Architech Solutions is seeking a Consultant/Developer to work in our Salesforce.com practice to develop custom Salesforce.com solutions using the Force.com suite of developer tools.

We work with many technologies and development platforms, and experience with a broad range of web application development tools and techniques including Weblogic, JBoss and other web application server technologies is an asset. A history of successfully integrating web apps with back-end systems, coupled with knowledge of SOAP and XML, as well as experience with user interface development and deployment will also be important attributes.

## **RESPONSIBILITIES:**

- Apply your broad-based web application development expertise to create practical, innovative solutions
- Apply your excellent communications skills, creativity and practical knowledge to benefit our clients and Architech Solutions
- Interact directly with Architech Solutions' partners and clients as you successfully contribute to integration and development initiatives
- Efficiently implement clean, maintainable, testable software
- Maintain clear communications with all stakeholders throughout project lifecycles

## **QUALIFICATIONS, SKILLS AND COMPETENCIES:**

You should fulfill most of the following requirements:

- University degree/diploma in computers, engineering or equivalent training/experience on Force.com.
  - 3 – 5 years designing/implementing Salesforce.com applications
  - Experience with Web Services (including SOAP, XML, XML Schema, and/or REST)
  - Demonstrated experience wiring Apex Code, Visualforce Pages, and test classes.
  - Solid understanding and experience with Java and J2EE/Java EE (including servlets, JSP, JSF, JDBC, JAXB, JAXP) is an asset
  - Solid understanding and experience with Java frameworks and libraries such as Struts, Spring, JUnit, Ant, Apache Jakarta libraries (Commons Lang, Commons Collection, Commons BeanUtils, etc.) is an asset
  - Experience with ORM frameworks such as Hibernate, JPA or JDO is not necessary but desired
  - Experience with one or more of the following RDBMS: Oracle 9i/10g, MySQL 5.x, PostgreSQL 7.x/8.x, SQL Server coupled with a solid understanding and experience with SQL
  - Solid understanding of object-oriented principles and ability to think at various levels of abstraction
  - Fully fluent in both written and spoken English with good written and verbal communication skills
- 

We would like to thank all applicants for their interest in this position; however, only those selected for an interview will be contacted.

Architech Solutions is committed to keeping our team members current with all of the technologies and systems that are pertinent to their work. Our senior leaders strongly believe in providing all tools and training needed to keep you up to speed.

Architech Solutions is an Equal Opportunity Employer and values a diverse workforce. We are committed to fair and equitable treatment of all applicants and team members.
