

## JAVA WEB DEVELOPER

Position: Permanent	Reports To: Director, Professional Services	Location: GTA (some travel required)
Education: Post secondary education in computers, engineering or a related discipline		
Experience: 5+ years		

## WE'RE AGILE SOFTWARE DEVELOPMENT EXPERTS

Our clients – ranging from small startups to non-profit organizations, to government agencies to mega brands – have sought our expertise to crystallize their business needs and to develop the right solution. Whether it's Agile software delivery of custom apps and integration, open source code, system optimization, off-the-shelf software, all of the above or none of the above, we listen to our clients and make their success our priority.

When it comes to user experience and user interface, we've got the smartest, most passionate, never-fail team around. Our clients must agree because they're looking for more of our time, which means we're looking for more outstanding people.

### POSITION SUMMARY

As a member of our core Agile delivery team, you will help build innovative and inspiring solutions for a range of organizations including many of Canada's top companies and national non-profits. Working with us means you'll:

- Demonstrate your experience with a broad range of web application development tools and techniques
- Employ your skills with building great user experiences and integrating web apps with back-end systems
- Build tailored solutions using cutting edge web development tools and technologies
- Learn and work with the latest development technologies
- Have access to tools and training that will help keep you current with the technologies and systems that are pertinent to your work
- Work alongside a team of collaborative software innovators

### RESPONSIBILITIES

- Apply your broad-based web application development expertise to create practical, innovative solutions
- Efficiently implement clean, maintainable, and testable software
- Interact directly with Architech's partners and clients
- Maintain clear communications with all stakeholders throughout project lifecycles
- Provide work effort estimates
- Interact with Software Engineers/Developers to integrate with backend services and enterprise systems
- Apply excellent communications skills, creativity and practical knowledge to benefit our clients and to effectively represent Architech
- Participate in agile project execution

### QUALIFICATIONS, SKILLS AND COMPETENCIES

With the understanding that some candidates will have greater strengths in Java Development, while other candidates' strengths will lie in Web Development, we look for some combination or mix of the following skills:

- Post secondary education in computers, engineering or equivalent training/experience
- Strong analytical skills and the ability to meet tight deadlines is essential for a fast-paced environment
- Solid understanding of client deliverables and the ability to take responsibility for them
- Exceptional English communication skills (both written and verbal) are a must
- 5+ years designing & implementing interactive, data-intensive Internet applications
- Expert Java development skills
- Expert JavaScript skills, and experience with JavaScript frameworks
- Expert semantic, standards compliant HTML skills
- Expert CSS skills
- Experience with Source Control Management
- Experience integrating CMS frameworks
- Experience with Web Services (SOAP and/or REST)
- Experience with RDBMS (eg. Oracle, MySQL, PostgreSQL)
- Experience with Rapid Web Application frameworks a plus (eg. Grails, Play, Spring Roo)
- Experience with RIA technologies a plus (eg. AJAX, Flex, Flash, Google Web Toolkit GWT)
- Experience with modern browser support and accessibility
- Experience with mobile web applications is an asset
- Applicants with agile project experience will be given preference

## JOIN US

Submit your resume to [careers@architech.ca](mailto:careers@architech.ca)

As an Architech team member, you can expect competitive compensation, benefits and rewards, exposure to a variety of projects as well as access to leading developmental tools, training and technologies.

If you're passionate, disciplined, fearless, creative, and want to build some badass software, send us your résumé and tell us what you've done, especially in the areas of agile development, cloud computing, Web 2.0 and high-performance user interfaces.

*We appreciate the interest of all applicants, only those deemed qualified will be contacted. Architech is an Equal Opportunity Employer and values a diverse workforce. We're committed to fair and equitable treatment of all applicants and team members.*
