Experience: 5+ years

WE'RE AGILE SOFTWARE DEVELOPMENT EXPERTS

Our clients – ranging from small startups to non-profit organizations, to government agencies to mega brands – have sought our expertise to crystallize their business needs and to develop the right solution. Whether it's Agile software delivery of custom apps and integration, open source code, system optimization, off-the-shelf software, all of the above or none of the above, we listen to our clients and make their success our priority.

When it comes to user experience and user interface, we've got the smartest, most passionate, never-fail team around. Our clients must agree because they're looking for more of our time, which means we're looking for more outstanding people.

POSITION SUMMARY

As a member of our core Agile delivery team, you will help build innovative and inspiring solutions for a range of organizations including many of North America's top companies. Working with us means you'll:

- Demonstrate your experience with a broad range of web application development tools and techniques
- Employ your skills with building great user experiences and integrating web apps with back-end systems
- Build tailored solutions using cutting edge web development tools and technologies
- Learn and work with the latest development technologies
- Have access to tools and training that will help keep you current with the technologies and systems that are pertinent to your work
- Work alongside a team of collaborative software innovators

RESPONSIBILITIES

- Apply your broad-based web application development expertise to create practical, innovative solutions
- Efficiently implement clean, maintainable, and testable software
- Provide work effort estimates
- Interact directly with Architech's partners and clients
- Maintain clear communications with all stakeholders throughout project life cycles
- Interact with Software Engineers/Developers to integrate with backend services and enterprise systems
- Apply excellent communications skills, creativity and practical knowledge to benefit our clients and to effectively represent Architech
- Participate in agile project execution

QUALIFICATIONS, SKILLS AND COMPETENCIES

- Post secondary education in computers, engineering or equivalent training/experience
- Strong analytical skills and the ability to meet tight deadlines is essential for a fast-paced environment
- Solid understanding of client deliverables and the ability to take responsibility for them
- Exceptional English communication skills (both written and verbal) are a must
- 5+ years designing & implementing interactive, data-intensive Internet applications
- Advanced PHP and PHP framework skills
- Sharepoint with PerformancePoint (dashboards) skills are a must
- Expert JavaScript skills, and experience with JavaScript frameworks
- Expert CSS skills
- Experience with modern browser support and accessibility
- Experience integrating CMS frameworks (eg. WordPress, Drupal, Sharepoint)
- Experience with Web Services (SOAP and/or REST) is a real asset
- Experience with RDBMS (eg. Oracle, MySQL, PostgreSQL)
- Experience with Source Control Management
- Experience with Java and .Net a plus
- Applicants with agile project experience will be given preference
- Expert semantic, standards compliant HTML/HTML5 skills
